Dakota Super Cooler 40

Heavy Duty Design & Quality Construction!

Our Dakota Super Cooler Kit is a heavy duty hydraulic reservoir, filter and cooler system. This unit is perfect for the most rugged applications with it's heavy duty design and quality construction.

Typical Applications

- Fertilizer Tenders
- Conveyors (Seed & Fertilizer)
- Auger Trailers
- Propane Trailers
- Water Tankers
- Bulk Fuel Trailer
- Winch Trucks

Models Available:

Item #	Description
ZP1700000	DSC-40 Hydraulic Fan w/ Aluminum Chassis

Standard Features:

Frame:	Aluminum
Reservoir:	8 gallon capacity
Cooler:	High efficiency AKG global line cooler w/ hydraulic or electric fan - 25 PSI bypass
Filter:	10 micron cartridge filter
Filler Breather:	10 micron filler breather w/ 4.5 PSI VAC/ pressure relief and fill screen
Porting:	SAE o-ring w/ NPT suction port <ul style="list-style-type: none"> • #20 male JIC return connection • 1/2" female NPT pressure connection to fan • 1/2" female NPT drain connection • 3/4" female NPT extra return connection • 2" female NPT suction connection
Gauge:	Sight level/temp. gauge
Nominal Flow Rate:	40 GPM (Maximum flow rate is variable based on application. Contact Customer Service for details.)
Pressure:	3000 PSI (Contact Customer Service for working pressures above 3000 PSI.)
Weight:	Approx. 40 lbs (will vary depending on options)
Dimensions:	Approx. 23.14" W x 23.75" H x 21" D

Performance Curve:

— DSC-40
— DSC-60
— DSC-100EX

The Inlet Temperature Difference is the difference between the inlet oil temperature and the inlet air temperature in °F. The smaller this difference is, the less ability the heat exchanger has to cool the oil.

Performance Curve is for reference only. Actual performance may vary based on system design, environment and maintenance.

BTUhr / 2544 = HP

Inlet Temperature Difference °F, see notes for explanation.
